Congressional Republicans MUST unite to pass President Trump's One, Big, Beautiful Bill and take advantage of the opportunity given by voters.

Congressional Republicans **MUST unite** to pass President Donald J. Trump's One, Big, Beautiful Bill and take advantage of the once-in-a-generation opportunity they were given by voters.

**Here are 20 reasons why Congress must unite behind the One, Big, Beautiful Bill:**

1. **It delivers the largest tax cut in American history.** This means an **extra \$5,000** in Americans' pockets with a DOUBLE-DIGIT percent **DECREASE** to their tax bills. Americans earning between \$30,000 and \$80,000 will pay around **15% less in taxes**.
2. **It includes NO TAX ON TIPS and NO TAX ON OVERTIME.** This makes good on two of President Trump's cornerstone campaign promises and will benefit hardworking Americans where they need it the most — their paychecks.
3. **It delivers Big, Beautiful Deportations.** The bill **permanently** secures our borders by making the largest border security investment in history, funding at least one million annual removals of illegal immigrants and **ramping up** "mass deportation operations to a level never before seen in American history."
4. **It finishes President Trump's border wall.** As a result, 701 miles of primary wall, 900 miles of river barriers, 629 miles of secondary barriers, and 141 miles of vehicle and pedestrian barriers will be **constructed** — stopping deadly fentanyl from flowing into our communities and securing the border from dangerous illegal immigrant murderers and rapists.
5. **It boosts Border Patrol and ICE agents on the frontlines.** It empowers immigration authorities to carry out their mission by hiring 10,000 new ICE personnel, 5,000 new customs officers, and 3,000 new Border Patrol agents — and gives \$10,000 bonuses in each of the next four years to agents on the frontlines.
6. **It protects Medicaid for Americans by kicking 1.4 million illegals off the benefits.** This bill eliminates waste, fraud, and abuse by ending benefits for at least **1.4 million** illegal immigrants who are gaming the system.
7. **It requires able-bodied Americans to work if they receive benefits.** With 4.8 million able-bodied adults choosing not to work, The One, Big, Beautiful Bill puts work requirements in place and supports them as they find dignity through employment.
8. **It reverses the spending curse plaguing Washington, D.C.** The legislation delivers the largest deficit reduction in nearly 30 years, with **\$1.6 trillion** in mandatory savings.
9. **It ends taxpayer-funded sex change for minors.** It **reverses** the **Biden-era mandate** that Medicaid **cover** so-called "gender transition" procedures for minors — ending the taxpayer-funded chemical castration and mutilation of American children.
10. **It provides historic tax relief to Social Security recipients.** It slashes taxes on seniors' Social Security benefits.
11. **It will give Americans PERMANENT tax relief through the Trump Tax Cuts.** If the bill doesn't pass, Americans will see the largest **tax increase** in history.
12. **It finally modernizes air traffic control, fulfilling President Trump's plan to completely overhaul the systems that keep Americans flying safely and efficiently.** This will allow President Trump to update our air traffic control systems and act where the Biden Administration failed (despite repeated **warnings**).

13. **It ends the taxpayer-funded Green New Scam.** The legislation repeals or phases out every "green" corporate welfare subsidy in Democrats' so-called "Inflation Reduction Act," immediately stops credits from flowing to China and saves taxpayers \$500+ billion every year, and reverses electric vehicle mandates that let radical climate activists set the standards for American energy.
14. **It incentivizes MADE IN AMERICA.** It rewards companies that build their products in America with lower taxes — and allows Americans who buy an American-made vehicle to fully deduct their auto loan interest.
15. **It is pro-family.** The One, Big, Beautiful Bill increases the child tax credit, establishes MAGA Accounts for newborns to start saving, and strengthens paid family leave.
16. **It repeals Democrats' insane attack on the gig economy.** It repeals the requirement that Venmo, PayPal, and other gig transactions over \$600 be reported to the IRS.
17. **It protects family farmers.** The bill prevents the greedy death tax from hitting two million family-owned farms who would otherwise see their exemptions cut in half and **cuts taxes** on farmers by over \$10 billion.
18. **It's a once-in-a-generation chance to revolutionize our nation's defense capabilities and protect the homeland against new threats.** It funds President Trump's Golden Dome, invests in American shipbuilding, and modernizes our military.
19. **It unleashes American energy dominance.** The legislation increases onshore and offshore oil and gas leases, which provides certainty for energy producers, spurs job growth, and makes energy more affordable for American consumers.
20. **It boosts American mineral development.** This bill increases mining of domestic minerals and makes America less dependent on foreign adversaries for critical minerals.

Congressional Republicans MUST unite [3] to pass President Donald J. Trump's One, Big, Beautiful Bill and take advantage of the once-in-a-generation opportunity they were given by voters.

Here are 20 reasons why Congress must unite behind the One, Big, Beautiful Bill:

\*

It delivers the largest tax cut in American history. This means an extra \$5,000 [4] in Americans' pockets with a DOUBLE-DIGIT percent DECREASE [5] to their tax bills. Americans earning between \$30,000 and \$80,000 will pay around 15% less in taxes [6].

\*

It includes NO TAX ON TIPS and NO TAX ON OVERTIME. This makes good on two of President Trump's cornerstone campaign promises and will benefit hardworking Americans where they need it the most – their paychecks.

\*

It delivers Big, Beautiful Deportations. The bill permanently [7] secures our borders by making the largest border security investment in history, funding at least one million annual removals of illegal immigrants and ramping up [8] "mass deportation operations to a level never before seen in American history."

\*

It finishes President Trump's border wall. As a result, 701 miles of primary wall, 900 miles of river barriers, 629 miles of secondary barriers, and 141 miles of vehicle and pedestrian barriers will be constructed [9] – stopping deadly fentanyl from flowing into our communities and securing the border from dangerous illegal immigrant murderers and rapists.

\*

It boosts Border Patrol and ICE agents on the frontlines. It empowers immigration authorities to carry out their mission by hiring 10,000 new ICE personnel, 5,000 new customs officers, and 3,000 new Border Patrol agents – and gives \$10,000 bonuses in each of the next four years to agents on the frontlines.

\*

It protects Medicaid for Americans by kicking 1.4 million illegals off the benefits. This bill eliminates waste, fraud, and abuse by ending benefits for at least 1.4 million [10] illegal immigrants who are gaming the system.

\*

It requires able-bodied Americans to work if they receive benefits. With 4.8 million able-bodied adults choosing not to work, The One, Big, Beautiful Bill puts work requirements in place and supports them as they find dignity through employment.

\*

It reverses the spending curse plaguing Washington, D.C. The legislation delivers the largest deficit reduction in nearly 30 years, with \$1.6 trillion [11] in mandatory savings.

\*

It ends taxpayer-funded sex change for minors. It reverses [12] the Biden-era mandate [13] that Medicaid cover [14] so-called “gender transition” procedures for minors – ending the taxpayer-funded chemical castration and mutilation of American children.

\*

It provides historic tax relief to Social Security recipients. It slashes taxes on seniors’ Social Security benefits.

\*

It will give Americans PERMANENT tax relief through the Trump Tax Cuts. If the bill doesn’t pass, Americans will see the largest tax increase [15] in history.

\*

It finally modernizes air traffic control, fulfilling President Trump’s plan [16] to completely overhaul [17] the systems that keep Americans flying safely and efficiently. This will allow President Trump to update our air traffic control systems and act where the Biden Administration failed (despite repeated warnings [18]).

\*

It ends the taxpayer-funded Green New Scam. The legislation repeals or phases out every “green” corporate welfare subsidy in Democrats’ so-called “Inflation Reduction Act,” immediately stops credits from flowing to China and saves taxpayers \$500+ billion every year, and reverses electric vehicle mandates that let radical climate activists set the standards for American energy.

\*

It incentivizes MADE IN AMERICA. It rewards companies that build their products in America with lower taxes – and allows Americans who buy an American-made vehicle to fully deduct their auto loan interest.

\*

It is pro-family. The One, Big, Beautiful Bill increases the child tax credit, establishes MAGA Accounts for newborns to start saving, and strengthens paid family leave.

\*

It repeals Democrats’ insane attack on the gig economy. It repeals the requirement that Venmo, PayPal, and other gig transactions over \$600 be reported to the IRS.

\*

It protects family farmers. The bill prevents the greedy death tax from hitting two million family-owned farms who would otherwise see their exemptions cut in half and cuts taxes [19] on farmers by over \$10 billion.

\*

It’s a once-in-a-generation chance to revolutionize our nation’s defense capabilities and protect the homeland against new threats. It funds President Trump’s Golden Dome, invests in American shipbuilding, and modernizes our military.

\*

It unleashes American energy dominance. The legislation increases onshore and offshore oil and gas leases, which provides certainty for energy producers, spurs job growth, and makes energy more affordable for American consumers.

\*

It boosts American mineral development. This bill increases mining of domestic minerals and makes America less dependent on foreign adversaries for critical minerals.
